

WiSACWIS Release 1.6.1 Notes

Activity Notes

5341	Print out of case notes- content does not appear	Case notes had been printing: "Please wait while retrieving data" on the print out. This has been corrected so that case notes now print correctly.
------	--	---

CPS Reports

5342	Cannot open mandated reporter notice - fatal app	The Mandated Reporter Notice was causing eWiSACWIS to fail. This has been corrected and the Mandated Reporter Notice can be launched from the PS Report page; the letter from the Assessment page also launches correctly.
------	--	--

Worker Assignment

5371	Fatal app on closing an assignment/ reassignment	Some users have reported receiving a fatal application error when reassigning a case or closing an assignment to a case with ticklers associated with the case. This incident will resolve the issue.
------	--	---

Worker Assignment

5374	Worker assignment is open on a closed case.	The case assignment for workers creating a closed case with a screened out intake will be closed as well.
------	---	---

Foster Care/Out of Home Placements

5386	In Home Service does not save	Workers will once again be able to save split payment and child specific rate information when creating and saving an in-home service placement.
